

Aware & Equipped

Creating Awareness of business with VFC

We at victory family church believe in encouraging and empowering movement in both our local church and in our community. In the spirit of equipping our people and their livelihoods we want to create awareness and opportunity. Through these challenging times we want to support upcoming, small, or needful businesses through generating awareness of these services and/or products available amongst the people in our church. Our heart is to create a space where we uplift these businesses and watch how God can grow them through faith. We want our family to know more about one another and support one another, whether it be in business or prayer. These details will also be available in the church and on the VFC Whatsapp line.
